

Dr. Angelo Dave Javier is adult cardiologist with subspecialty training in adult congenital heart diseases (ACHD) and echocardiography. He obtained his medical degree from the University of Santo Tomas in Manila, Philippines (2004) and subsequently completed his Internal Medicine (2008) and Adult Cardiology (2012) post-graduate training in the University of the Philippines-Philippine General Hospital. He is a Diplomate and Fellow of the Philippine Heart Association-Philippine College of Cardiology. He further specialized in ACHD at St. Luke's International Hospital in Tokyo, Japan (2012-2013) and at the Toronto Congenital Cardiac Centre for Adults at the Toronto General Hospital (2014-2016). Currently, he is a fellow in Echocardiography at the University Health Network (2016-2018). His clinical and research interests include ACHD imaging, valvular heart disease, and developing ACHD educational tools for general cardiologists.
